

Physician Practice Reconfiguration

Customized Solutions to Improve Operations and Profitability

e4 employs LEAN tools and methods to drive physician practice and provider projects efficiently, delivering transparency, timeliness and accountability for all initiatives. From revenue cycle, clinical and office operations to billing, coding and clinical workflow, e4 is your partner for ongoing support.

Service	Solution Description
Staff Productivity Reporting	All-inclusive, interactive dashboards to reduce costs, optimize workflows, and improve quality metrics.
Autonomous Revenue Cycle	Modify RC operations with best in class technology aimed at increasing collections and lowering cost to collect.
Patient Education/Communication	e4 can assist in creating and delivering your customized patient education plan.
Auditing Services	Expert multi-specialty auditing consultants, industry-leading quality reporting tools, on demand dashboards and customized education approaches.
Coding Services	Experienced, credentialed and certified coding consultants to help maximize your reimbursement.
Clinical Documentation Improvement Services	Clinical documentation reviews, provider documentation training & support, quality measure abstraction & more.
Physical Location Planning	Comprehensive support of all location planning logistics, including planning, coordination and device testing.
Telehealth/EMR Integration	Program management and strategic staffing services to help integrate your telehealth and EMR software to result in one complete patient record.
Remote Working Productivity	Simple software solutions to monitor and provide real-time visibility into the productivity of your remote workers.
Security Services	Process design, modernization, and penetration testing to ensure security risk and compliance.
Auto Rescheduling/Waitlist Management	Text-to-Reschedule solution that works in the background to fill gaps in the schedule.
Contracting: Payors, Vendors and Business	Proven strategies to maximize contracts to increase reimbursement, generate ROI, and improve processes.
Realization Rate Services	Simple metric that tracks your payment to the contracted rate. Why are you not paid 100%?
Liquidation Plan for Current AR	Liquidation plan preparedness and formulation for current accounts receivable.
Telehealth Contracting	Include telehealth services in the managed care contracts along with clinical & technical policies.
Marketing Services	Communications, branding and marketing advisory services to support your practice.
